

Stranger  
Danger

Written by:

Jani Fraim

February 2013

To my boys Matthew, Mark, Lucas and  
Miss Kerber and her students in 3C.  
Thank you for making this a reality.

# Stranger Danger

Wondering why these words are written in red?

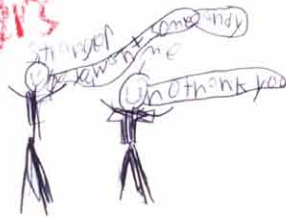

Time to explain the words that have been said....

# Knowing the difference between right and wrong

Wrong  
litter  
get away from  
strangers

right  
recycle  
stay away from  
strangers

A task within it's self usually life long.

The words you have seen are always lurking

A constant reminder like baby chicks chirping....

Be aware of your surroundings, every detail counts

Butterflies fluttering in your tummy begin to mount....

Remember being little? Mom and Dad love you so much

There is nothing like a loved ones touch....

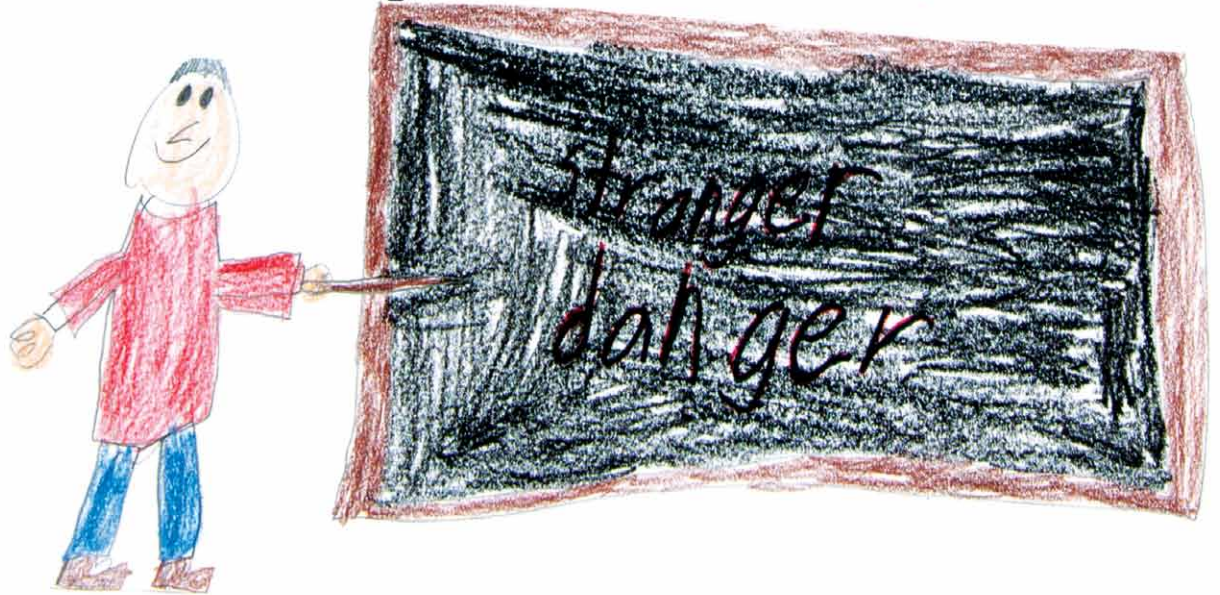

Never let yourself accept candy from a stranger

Lesson learned young... it's a real danger:

Stranger danger needs to be understood ... no one's immune

Try not to pop an inflated party balloon....

Know, **Stranger danger** can approach... run away fast!

Mom and Dad always worry about their little ones

Like a lion with her cubs - leave alone!

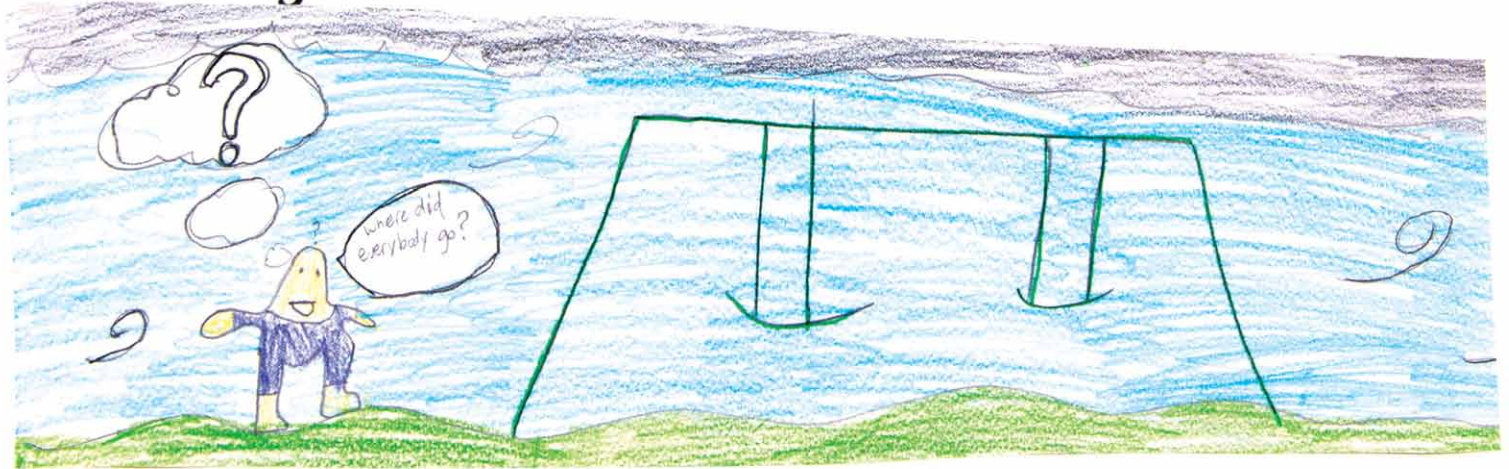

Sometimes, **danger** follows **stranger** - that could cause harm

Realizing that you are alone, is cause for alarm!

Hidden in plain sight you begin to shiver....

Hair on the back of your neck starts to quiver.

Teaching you to never ever talk to Strangers

Do not talk  
to Strangers ever

As you grow, there will always be danger!

You can not make **Stranger danger** disappear with soap bubbles

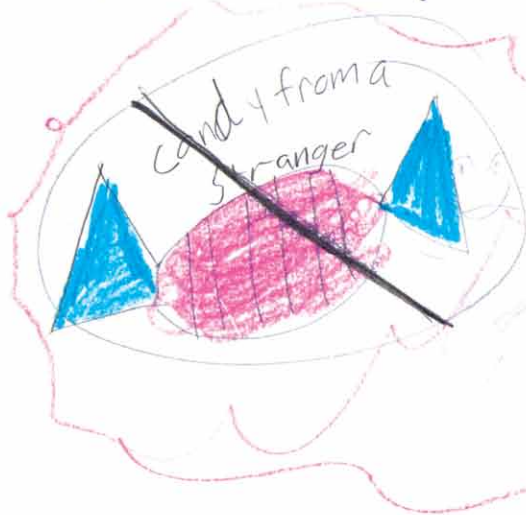

A rainbow in the sky makes happy puddles.

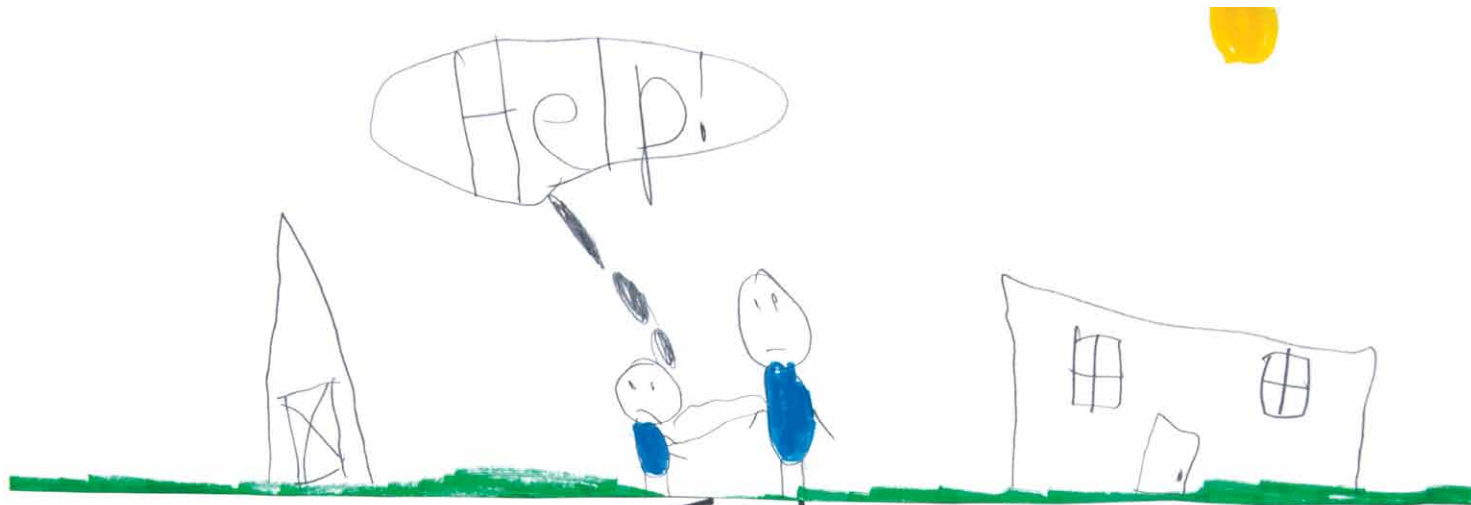

What should you be aware of with **Strangers?**

The End
